**Location:** Roswell

This **bar and entertainment area** packs a lot of function into an attractive package. The main focal point of the room, the **pecan wood bar**, hides a bar sink and plenty of storage within it. **Temperature-controlled wine storage** is tucked away neatly into the **custom cabinetry** behind the bar, where **glass-doored cabinets** display barware. **Bell Pendant light** coverings with a lattice glass finish by Jamie Young Company, and **built-in LED lights** above the **antique mirror**, give the room a soft glow. 🏠
